Can I get seraphic crystals in normal mode? Seraph's crystals are acquired by: Killing Seraph's Guardians in Ultimate Vault Hunter Mode. Play the Lootsposion Slot Machine in the Flamerock Refuge tavern in the DLC Tiny Tina's Assault on Dragon Keep. This is the only means to acquire Seraph crystals in normal mode or True Vault Hunter mode. Borderlands: The beautiful collection Beautiful collection General Discussion I wonder if you can get the seraphic guns (specifically tattler for my Maya) in NVHM. Trying to get an advantage as I'm struggling a little. LndshrK8909: Currently you can only get crystals from UVHM that you can resume to normal and buy the weapon you want. While UVHM Raid Bosses are the best and fastest way to cultivate seraphic crystals, it is not the only way. They can be grown in NVHM, TVHM and UVHM from the erydium slots in Flamerock, but this is not a practicable farm as a single hit pays 3 crystals, so it would be better to find someone willing to cultivate crystals in UVHM for you. with crystal seraph gears/gun can be purchased in all three playthroughs I should have said it better. If I go to NVHM with my Krieg (which is currently op2), is it possible that the seraphic guardians leave the seraphic pistols/the grey mods while they are in NVHM? It's been a while since I played, but as much as I remember it wouldn't work. If you struggle with seraph crystal agriculture an easy way to cultivate them would kill Hyperius using Zero Bore skill, it is a simple technique that once you understand how to do it you will be able to defeat Hyperius consistently and breed a large amount of crystals. (If you are not familiar with it I can explain further). I don't think I can say that well, I can breed seraphic crystals without problems, but the o-negative for example fall into NVHM? Yes, they can drop the seraphic guns in NVHM. The dragons will leave one of them for sure, not 100% sure on the other guardians, but if the dragons fall one, I'm pretty sure that others will. I will investigate further and let you know through psn or here EDTT: I just remembered you wanted the O-Neg grenade. I can't say for sure if he does. I just killed hypericole about 30+ times and voraciousThe same and only fell one or two serafe weapons at that time with a couple of legends between and no one were the grenade mod. If you want one at the OP8 I can help you. Good luck for your hunt. 1 as gammuh: I think I can't tell him well, I can seraphic crystals without problems, but the o-negative for instance fall into NVHM? as mentioned above by lndshrK8909, the ancient dragons are a 100% drop in both NVHM and TVHM, they fall only one of these per run, a gun (does not remember the name), the Omen, and the Blockade (shield), as for others I'm not sure, I think I got a Retcher from Hyperious in TVHM after about 120 kills. if your thought you can breed the gear there and get it to your level, then no that can't happen, higher level seraph you can hope out of NVHM and TVHM is level 50. You can still breed Seraph Vendors, Dragons, and other raids in those playthroughs and gain gear for lower level toons that way 1
